

Naveen Rajendran

Product Designer

Phone: +91 6383963463 email: evinaveen@gmail.com [Linked In](#) [Portfolio](#)

PROFESSIONAL SUMMARY

Product Designer with 3+ years of experience designing AI-powered digital products across real estate and enterprise platforms. Skilled in product discovery, UX research, interaction design, prototyping, usability testing, and AI product strategy. Experienced in simplifying complex workflows and collaborating with cross-functional teams to build intelligent, user-centered products that balance customer needs, business goals, and emerging AI capabilities.

WORK EXPERIENCE

Styldod Inc - Bangalore

APR 24- APR 26

AI Designer - *Reimaginehome.ai*

Reimaginehome.ai is an AI-powered platform transforming real estate visuals through advanced generative models and prompt-driven workflows.

Product Strategy & Discovery

- Led discovery for AI-powered real estate products by identifying customer pain points, validating ideas, and defining product direction.
- Worked closely with engineering and AI teams to translate business problems into scalable product solutions.
- Defined MVP scope and evaluated product feasibility by balancing user value, technical complexity, and operational cost.
- Used beta user insights and behavioral analytics to influence future product roadmap decisions.

User Research & Product Thinking

- Conducted continuous usability evaluation of AI-generated outputs to improve product quality and customer trust.
- Built user feedback loops through beta testing and session observation to uncover new customer behaviors and product opportunities.
- Collaborated with stakeholders to prioritize features based on customer impact and business value.
- Maintained prompt consistency across outputs by defining agent-level strategies, fallback behaviors, and quality checkpoints that reduced manual review cycles
- Curated high-quality, design-focused datasets to improve visual consistency and interactivity of AI-generated outputs

UX & Interaction Design

- Designed end-to-end workflows for AI-assisted image editing, virtual staging, compliance automation, and property intelligence products.
- Created user flows, wireframes, interaction models, and AI conversation experiences that simplified complex image editing workflows.
- Improved overall product usability through iterative testing and design refinements.

AI Product Design

- Designed AI-assisted workflows combining vision models, image generation models, and conversational interfaces.
- Defined interaction patterns for AI-powered editing experiences that improved predictability and user confidence.
- Evaluated AI outputs for accuracy, realism, and usability while collaborating with ML teams to improve overall system performance.

Cross-functional Collaboration

- Partnered with Product Managers, Engineers, AI Researchers, and QA teams throughout the product lifecycle.
- Facilitated communication between design and AI teams to ensure technical capabilities aligned with customer needs.
- Documented product requirements, interaction guidelines, and design decisions to support scalable development.

Accenture - Bangalore

FEB 22- SEPT 23

UX Designer - ALDI DiGITAL

ALDI is a global discount supermarket, is widely recognized for its emphasis on quality, affordability, and streamlined shopping experience

- Collaborated within a team of 8 designers to create cohesive, scalable design solutions for ALDI's web presence across six countries
- Translated complex client requirements into structured UX strategies, presenting rationale to stakeholders and iterating based on feedback – a workflow that maps directly to strategy design and client expectation
- Redesigned high-traffic pages (warranty claim portal, recipe pages, OSD page) by identifying user pain points
- Contributed to a robust design system enabling scalable, consistent outputs across teams

SKILLS

Product Design	Product Discovery, MVP Definition, User Journey Mapping, Product Strategy, Feature Prioritization
Design & UX	Information Architecture, Usability & Accessibility Testing, Figma, Mockups & Prototyping, Wireframing
Prompt Engineering	Prompt design & optimization, A/B testing, Prompt libraries, Guardrails & safety, Agentic workflows
AI & Tools	Stable Diffusion, Google Gemini, Flux Kontext, Nano Banana, Eigen Banana, SeedEdit, ChatGPT, Claude, Qwen, Deepseek, Cursor
Soft Skills	Client Collaboration, Cross-functional Communication, QA & Quality Bench marking, Analytical Thinking · Adaptability

CERTIFICATION

USER EXPERIENCE DESIGN	JUL 2023
Interaction Design Foundation (IXDF) -Accenture	
USER EXPERIENCE DESIGN - Digital Skill	AUG2023
Future Learn - Accenture	
Design Principles, Need for Design Patterns & the Principle Guiding Design Patterns	AUG 2023
Skill Soft - Accenture	

EDUCATION

Bachelor's Degree in Computer Science and Engineering	2017-21
Park College of Technology – Coimbatore	
CGPA – 8.06
